

Joseph Bermudez

20838 SW 118th Place, Miami, FL 33177 • (786) 571-2819 • JCBTechs@gmail.com

OBJECTIVE

A full-stack developer with a solid track record of building robust and scalable web applications, seeking an opportunity to work in a forward-thinking company where I can leverage my full-stack development skills and passion for blockchain and AI to develop innovative solutions and drive business growth.

EDUCATION & EXPERIENCE HIGHLIGHTS

Bachelor of Arts in Computer Science

December 2021

Florida International University (FIU); Miami, FL

- GPA: 3.38 / 4.00 (Dean's List)
- Relevant Coursework: Web Development, Mobile Application Development, Database Systems, Software Engineering
- Proficient in JavaScript, React, Node.js, Express, HTML, CSS and Git
- Experience with Agile software development methodologies
- Strong debugging and problem-solving skills
- Experience with building RESTful APIs, UI/UX design and unit testing
- Familiarity with JWT and Joi for user authentication and data validation

WORK EXPERIENCE

Legal Administrative Assistant (Remote)

March 2017 – April 2022

Kurkin Forehand Brandes LLP; Aventura, Florida

Comptroller/Firm Administrator Contact Information: (305) 929-8525 / kgonzalez@kfb-law.com

- Worked with ProLaw (Thomson Reuter), Time Matters (Lexis Nexis), and Worldox.
- Scanned and read incoming material in order to determine how and where it should be classified or stored.
- Built and maintained reliability in the firm's confidential filing systems.

Software Engineer Intern – Mobile & Web Development

January 2021 – May 2021

Bizzie Co. Miami, Florida

- Contributed to the development of a business application using Flutter, React, and Firebase.
- Collaborated with a cross-functional team to achieve sprint goals and deliver a minimum viable product.
- Assisted in data analysis and metadata management utilizing Firebase.
- Developed the application landing page using React and gained a strong understanding of hooks and their lifecycles.
- Utilized Adobe XD to create wireframes and diagrams, effectively communicating design concepts with the team.
- Assisted in testing, debugging, and deploying the application.

Full Stack Software Engineer

April 2022 – Present

Atlantic Coast Automotive Inc.; Miami Lakes, Florida

- Led the development of a camera and screen recording Vue component, resulting in its widespread adoption within the company for all business deals.
- Developed user-centered designs through the creation of elegant, useful, and practical wireframes utilizing Figma.
- Built efficient and reusable pages and components using Vue, contributing to the overall performance and user experience of the web application.
- Collaborated with cross-functional teams to debug, test, and improve the web application through agile development methodologies.
- Leveraged Azure Media Services and various NuGet packages to achieve video encoding and streaming capabilities.
- Implemented robust and scalable data storage solutions using Azure Blob Storage and File System.
- Utilized ASP.NET Core, SignalR, and Elasticsearch in the backend to achieve project goals and meet business requirements.
- Improved the visual aesthetic and user experience through the implementation of smooth and responsive pages using CSS.

SKILLS

- Proficient in: React, Vue, Node.js, Express JavaScript, HTML, CSS, Git, Azure, Elasticsearch, SignalR, Figma, Azure Media Services, Azure Blob Storage, Azure File System.
- Strong problem-solving skills and ability to identify and implement creative solutions.
- Excellent communication and collaboration skills with experience working in cross-functional teams.
- Strong attention to detail and ability to deliver high-quality code.
- Self-motivated and able to work independently as well as part of a team.
- Strong time management and ability to prioritize multiple tasks and meet deadlines.
